Finding Direction...

We all face challenges, but for some children, trauma, psychiatric and emotional difficulties, or behaviors borne of abuse can create extraordinarily difficult challenges. These children and their families need treatment, guidance and hope for the future.

Stillwater is a Residential Treatment Facility licensed by New York State Office of Mental Health and accredited by the Joint Commission on Accreditation of Health Care Organizations. At Stillwater, children and families find guidance and support as they learn to cope with the tremendous challenges they face. It is a safe and structured environment where children receive the treatment they need and families learn skills and strategies to help them succeed as they move together toward the future with courage and strength.

For these children and families however, it will take more than caring and support to make meaningful changes. Our dedicated professionals and paraprofessionals are trained in numerous therapies and interventions that assist our residents in healing and learning skills in order to successfully move back into their own homes and communities.

Located in tranquil Greene, New York, our campus offers the added beauty of its natural rural setting. Our many acres of grounds include an organic vegetable garden, areas for active play, walking, or quiet solitude.

...Realizing Dreams.

Stillwater serves boys and girls ages 7 to 16 who experience serious and persistent emotional and psychiatric problems requiring intensive treatment.

We provide comprehensive and compassionate care focused on a child's and family's strengths. Our multi-disciplinary team of professionals provides:

- Psychiatric care
- Licensed Clinical Social Work care
- Health & wellness
- Therapeutic recreation
- Educational services
- Tasks & skills development
- Social & life skills training
